This Action is responsive to the communication filed January 7, 2009.

The drawings are objected to for being missing. Drawings on separate papers are required.

Claims 2-13 and 15-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse. Although some of these claims were listed as reading on the elected species, all such claims depend from nonelected claim 2 and are therefore also withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by FR 2,466,692, of record.

It is believed the pertinence of the reference is readily apparent.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
